AGENDA ITEM # 6

DATE: July 21, 2026

RECOMMENDATION: 1) Award an amount not to exceed \$22,250 in Carl Moyer Program funds to New Vision Landscaping, owned and operated by Juan Navarro located in Lancaster, for the purchase of a portable charging system; 2) Authorize the Executive Director/APCO the option to change the funding source if warranted or if other applicable sources become available; 3) Authorize the Executive Director/APCO and staff to negotiate target time frames and technical project details and execute agreements, approved as to legal form by the Office of District Counsel; and 4) Find that the California Environmental Quality Act (CEQA) does not apply to this item.

SUMMARY: This item seeks approval to award up to \$22,250 in Carl Moyer Program funds to New Vision Landscaping for the purchase of a Greenworks EnergyCube 16.2 kWh ChargeLink portable charging system. The proposed charging system will support their existing fleet of battery-electric lawn and garden equipment by providing mobile charging capability during field operations, reducing operational downtime and helping eliminate the continued need for gasoline-powered backup equipment during the workday.

BACKGROUND: In April 2025, New Vision Landscaping began transitioning its gasoline-powered lawn and garden equipment fleet to battery-electric zero-emission equipment through the District's Commercial Lawn and Garden Equipment Replacement Program. Since that time, the company has replaced approximately 90 percent of its gasoline-powered equipment with battery-electric alternatives. After more than one year of operating its zero-emission fleet, the applicant has identified operational challenges associated with battery capacity throughout workdays. Although the battery-electric equipment has performed well, available battery capacity has been insufficient to support daily field operations, requiring the applicant to supplement certain operations with gasoline-powered equipment. To address these operational limitations, New Vision Landscaping has applied for funding to purchase a Greenworks EnergyCube 16.2 kWh ChargeLink portable charging system. According to the manufacturer, the EnergyCube is specifically designed as a mobile charging solution for landscapers and provides sufficient charging capacity to recharge the applicant's battery-electric riding mower, which utilizes an integral non-removable battery, as well as multiple rechargeable equipment batteries while working in the field. District staff reviewed the application in accordance with the Carl Moyer Program Guidelines and determined that the proposed EnergyCube qualifies as eligible portable infrastructure under Chapter 10 of the Carl Moyer Program Guidelines and is necessary to support the applicant's existing zero-emission equipment fleet.

LANCASTER, CALIFORNIA**

AGENDA ITEM # 6

PAGE 2

The maximum eligible funding for the project is \$18,912, representing 85 percent of the project cost. However, the Carl Moyer Program Guidelines authorize districts to waive the required applicant cost share for qualifying small landscape businesses. Because New Vision Landscaping is a small business that has made a significant investment in transitioning to zero-emission equipment, staff recommend waving the applicant cost share and awarding 100 percent of the eligible project cost.

REASON FOR RECOMMENDATION: Governing Board approval is needed for the use of District funds. Additionally, Governing Board authorization is needed for the Executive Director/APCO and staff to negotiate and execute an agreement with the grant recipient.

REVIEW BY OTHERS: This item was reviewed by Allison E. Burns, Special Counsel to the Governing Board, as to legal form and by Barbara Lods, Executive Director/APCO on or before July 13, 2026.

FINANCIAL DATA: Funds are granted from the District's Carl Moyer Program funds.

LEVINE ACT: The Levine Act (Gov. Code Section 84308) prohibits AVAQMD officials from participating in certain decisions regarding licenses, permits, and other entitlements for use if the official has received a campaign contribution of more than \$500 from a party, participant, or agent of a party or participant in the previous 12 months. The Levine Act is intended to prevent financial influence on decisions that affect specific, identifiable persons or participants. RECOMMENDATION: Approve legislation allowing compensation for members of the Governing Board pursuant to California Health and Safety Code Section 41313.

SUMMARY: Adoption of the proposed resolution will establish compensation for members of the Governing Board in accordance with California Health and Safety Code Section 41313, as enacted by Assembly Bill (AB) 471.

BACKGROUND: Assembly Bill 471 was signed into law on October 6, 2025, and became effective on January 1, 2026. The legislation added Section 41313 to the California Health and Safety Code to specifically authorize the Antelope Valley Air Quality Management District to provide compensation to members of its Governing Board.

Health and Safety Code Section 41313 authorizes the Governing Board to establish compensation by resolution adopted at a regular public meeting. The statute authorizes compensation of up to \$200 per day for attendance at Governing Board meetings, committee meetings, or while performing authorized District business, with an annual maximum of \$7,200 per Board member. The statute also authorizes future adjustments based on changes in the California Consumer Price Index, provided any adjustment is approved by the Governing Board at a regular public meeting. Additionally, if compensation is established, the District must submit a report to the appropriate legislative policy committees within three years evaluating the implementation and impact of the compensation program.

The proposed resolution establishes compensation for Governing Board members consistent with the authority and limitations provided in Health and Safety Code Section 41313.

REASON FOR RECOMMENDATION: Adoption of the proposed resolution will implement the authority granted by Health and Safety Code Section 41313 and establish Governing Board compensation in accordance with state law.

RESOLUTION 26-03

A RESOLUTION OF THE GOVERNING BOARD OF THE ANTELOPE VALLEY AIR QUALITY MANAGEMENT DISTRICT MAKING FINDINGS, CERTIFYING THE NOTICE OF EXEMPTION, AMENDING RULE 301 – *PERMIT FEES* AND DIRECTING STAFF ACTIONS.

16 **WHEREAS**, a public hearing has been properly noticed and conducted, pursuant to H & S Code

STAFF REPORT

Rule 301 – *Permit Fees*

I. PURPOSE OF STAFF REPORT

A staff report serves several discrete purposes. Its primary purpose is to provide a summary and background material to the members of the Governing Board. This allows the members of the Governing Board to be fully informed before making any required decision. It also provides the documentation necessary for the Governing Board to make any findings, which are required by law to be made prior to the approval or adoption of a document. In addition, a staff report ensures that the correct procedures and proper documentation for approval or adoption of a document have been performed. Finally, the staff report provides evidence for defense against legal challenges regarding the propriety of the approval or adoption of the document.

II. EXECUTIVE SUMMARY

On July 1, 1997 the Antelope Valley Air Pollution Control District (AVAPCD) was created pursuant to statute (former Health & Safety (H&S) Code §40106, A.B. 266-Knight Ch. 542, statutes of 1996) and assumed all air pollution control responsibilities from the South Coast Air Quality Management District (SCAQMD) for the area of Los Angeles County outside the South Coast Air Basin. The SCAQMD rules in effect within the jurisdiction of the AVAPCD remained in effect until the AVAPCD Governing Board superseded or amended them. On January 1, 2002 the AVAQMD was created pursuant to statute (H&S Code §41300 et seq.) to replace the AVAPCD. Once again, the rules in effect at the time of the change remained in effect until the AVAQMD Governing Board superseded or amended them.

The District's mandated functions such as compliance, permit issuance, and permit administration are labor intensive. Therefore, the related fee revenue should be structured to support the relevant regulatory and administrative activities.

The 2026-2027 budget includes anticipated revenue derived from a proposed 8% fee increase to Rule 301 – *Permit Fees* to recover the rising costs of issuing air quality permits, performing inspections, investigations, and enforcing District rules and regulations.

The proposed fee adjustments are well within the provisions of Health & Safety Code §42311(a) and fall within the exemption found in Article XIIIC §1(e)(3) of the California Constitution.

To allow time to implement the proposed fee changes, the amendment of Rule 301 – *Permit Fees* is proposed to be effective on January 1, 2027.

III. STAFF RECOMMENDATION

Staff recommends that the Governing Board of the AVAQMD adopt amendments to Rule 301 – *Permit Fees* and approve the appropriate CEQA documentation.

V. DISCUSSION OF LEGAL REQUIREMENTS

A. REQUIRED ELEMENTS/FINDINGS

This section discusses the State of California statutory requirements that apply to the proposed amendments to Rule 301 – *Permit Fees*. These are actions, that need to be performed, and/or information, that must be provided in order to amend the Regulation in a procedurally correct manner.

1. State Findings Required for Adoption of Rules & Regulations:

Before adopting, amending, or repealing a rule or regulation, the AVAQMD Governing Board is required to make findings of necessity, authority, clarity, consistency, non-duplication, and reference based upon relevant information presented at the hearing. The information below is provided to assist the Board in making these findings.

a. Necessity:

The District's mandated functions such as compliance, permit issuance, and permit administration are labor intensive. Therefore, the related fee revenue should be structured to support the relevant regulatory and administrative activities.

b. Authority:

The District has the authority pursuant to California Health and Safety Code (H&S Code) §40702 to adopt, amend or repeal rules and regulations. The AVAQMD also has the authority to adopt and amend annual fees for the evaluation, issuance and renewal of permits (H&S Code §§41240, 41330, 41512.7, 40711(a), 42310.5, 42311, and 42311.2), enforcement, inspections and air monitoring (H&S Code §§41240, 41330, 40701, 40715, 41512, 41512.5, 42311, 42311.2, 42707, and 42400 et seq.), planning and rule development (H&S Code §§41240, 41330, 41512.7, 40727.2 and 42311), public records act compliance (Government Code 6253), toxic "Hot Spots" (H&S Code §§44344.4, 44380, 44381 and 17 CCR 90703) and "Title V Permitting" (40 CFR 70.9, H&S Code §§41330, 41512.7 and 42311).

c. Clarity:

The proposed amendments to Rule 301 – *Permit Fees* are clear in that they are written so that the persons subject to the rule can easily understand the meaning. Any person or organization applying for and/or holding an AVAQMD Authority to Construct (ATC) or Permit to Operate (PTO) is affected by the proposed amendments to Rule 301. This rule amendment has been developed to adjust fees to Rule 301 to recover the rising costs associated with issuing and enforcing both District and Federal permits.

d. Consistency:

The proposed amendment of Rule 301 – *Permit Fees* is in harmony with, and not in conflict with or contradictory to any state law or regulation, federal law or regulation, or court decisions because these laws and regulations allow for the proposed amendments to the fee rules.

e. Non-duplication:

The proposed amendment of Rule 301 – *Permit Fees* does not impose the same requirements as any existing state or federal law or regulation because H&S Code §40702 allows the District to adopt, amend or repeal rules and regulations and H&S §42311 and various other sections merely authorize the imposition of such fees but does not specify the types and amounts of fees to be imposed.

f. Reference:

AVAQMD has the authority pursuant to H&S Code §40702 to adopt, amend or repeal rules and regulations and the authority pursuant to H&S Code §42311 to adopt a schedule of annual fees.

g. Public Notice & Comment, Public Hearing:

Notice for the public hearing for the proposed amendment of Rule 301 – *Permit Fees* will be published on June 20, 2026, for the July 21, 2026, Governing Board meeting. See Appendix “B” for a copy of the public notice. See Appendix “C” for copies of comments, if any, and District responses.

2. Federal Elements (SIP Submittals, Other Federal Submittals).

Submittals to USEPA are required to include various elements depending upon the type of document submitted and the underlying federal law that requires the submittal. Rule 301 – *Permit Fees* is a fee rule and does not ordinarily require submission to USEPA. Various prior versions of Rule 301 were previously

included in the State Implementation Plan (SIP). USEPA removed these rules from the SIP on November 16, 2004 (69 FR 67062; 40 CFR 52.220(c)(137)(vii)(F)). Therefore, these rules are not required to be a federal submittal.

B. WRITTEN ANALYSIS OF EXISTING REQUIREMENTS

H&S Code §40727.2 requires air districts to prepare a written analysis of all existing federal air pollution control requirements that apply to the same equipment or source type as the rule proposed for modification by the District. The proposed amendments to Rule 301 – *Permit Fees* only modify fees and provide minor clarification. These proposed amendments do not in themselves impose air pollution control requirements. Therefore, the preparation of a written analysis of existing pollution control requirements that apply to the same equipment or source type is not required.

C. ECONOMIC ANALYSIS

1. General.

Fees are a primary revenue source that supports the District's efforts to implement and enforce the provisions of the Federal Clean Air Act (FCAA), the California Clean Air Act (CCAA) and District Rules and Regulations. Permit fee schedules reflect the expenditure required to provide analysis of applications, inspections of the regulated community, tracking the inventory of pollutants produced by the regulated industry, and enforcement of federal, state and local mandates regarding air pollution among other mandatory District functions.

2. Economic Analysis for Rule 301 – *Permit Fees*

The AVAQMD is proposing a fee increase to Rule 301 – *Permit Fees* to recover the rising costs of issuing air quality permits, performing inspections, investigations, and enforcing District rules and regulations.

The proposed fee adjustments are well within the provisions of Health & Safety Code §42311(a) and fall within the exemption found in Article XIIC §1(e)(3) of the California Constitution.³

3. Incremental Cost Effectiveness.

Pursuant to H&S Code §40920.6, incremental cost effectiveness calculations are required for rules and regulations which are adopted or amended to meet the CCAA requirements for Best Available Retrofit Control Technology (BARCT) or "all feasible measures" to control volatile compounds, oxides of nitrogen or oxides of sulfur. The proposed amendments to *Rule 301 – Permit Fees* only affect fees and rule structure and therefore do not require this analysis.

D. ENVIRONMENTAL ANALYSIS (CEQA)

1. Through the process described below, it was determined that a Notice of Exemption would be the appropriate CEQA process for the proposed amendments to Rule 301 – *Permit Fees*.

a. The proposed amendments to Rule 301 – *Permit Fees* meet the CEQA definition of “project.” They are not “ministerial” actions.

b. The proposed amendments to Rule 301 – *Permit Fees* are exempt from CEQA review because they merely adjust fees and fee methodologies and there is not potential that the amendments might cause the release of additional air contaminants or create any adverse environmental impacts, a Class 8 categorical exemption (14 Cal. Code Reg. §15308) applies.

E. SUPPLEMENTAL ENVIRONMENTAL ANALYSIS

1. Potential Environmental Impacts

The proposed amendments to Rule 301 – *Permit Fees* do not have any potential environmental impacts because the amendments merely adjust fees, make minor format corrections and provide clarification. The amendments do not have any impact upon emissions of air contaminants.

2. Mitigation of Impacts

N/A

3. Alternative Methods of Compliance

N/A

F. PUBLIC REVIEW

E. RULE HISTORY

Prior to July 1, 1997 the Antelope Valley was contained within the SCAQMD. On July 1, 1997 the AVAPCD replaced the SCAQMD as the agency with jurisdiction over the Los Angeles County portion of the Mojave Desert Air Basin (MDAB). On January 1, 2001 the AVAPCD was replaced by the AVAQMD. Pursuant to both statutory changes, the rule and regulations of the predecessor district were retained until the Governing Board adopted, amended or rescinded them. At the first meeting of both the AVAPCD and the AVAQMD, the respective Governing Boards reaffirmed all the rules and regulations in effect at the time the agency changed.

The jurisdiction of the AVAPCD and the AVAQMD were specified in the statutes as the portion of the Los Angeles County contained within the MDAB. The MDAB was formerly known as the Southeast Desert Air Basin (SEDAB). In 1997 the SEDAB was split into the MDAB and the Salton Sea Air Basin. Descriptions of these air basins can be found in 17 Cal. Code Regs. §§60109 and 60144. Since USEPA adopts SIP revisions in California as effective within jurisdictional boundaries of local air districts, when the local air district boundaries change the SIP as approved by USEPA for that area up to the date of the change remains as the SIP in that particular area. Thus, upon creation of the AVAPCD on July 1, 1997 the AVAPCD acquired the SIP applicable to the Antelope Valley portion of the SCAQMD that was affected as of June 30, 1997. Likewise, the AVAQMD acquired the SIP that was effective in the jurisdiction of the AVAPCD as of December 31, 2000. Therefore, the SIP history for this region is based upon the rules adopted, effective, and approved for the Antelope Valley by SCAQMD.

Rule 301 was originally adopted by the SCAQMD on 02/04/1977. It has been subsequently amended 05/27/77, 01/06/78, 06/16/78, 04/04/80, 09/05/80, 06/05/81, 09/09/82, 12/03/82, 06/03/83, 05/04/84, 07/06/84, 11/02/84, 12/06/85, 05/01/87, 06/03/88, 12/02/88, 01/06/89, 06/02/89, 06/01/90, 06/07/91, 12/06/91, 06/05/92, 07/10/92, 06/11/93, 10/08/93, 06/10/94, 05/12/95, 10/13/95, 05/10/96, 05/09/97, 03/17/98, 11/15/05 effective 01/01/06, 09/18/07 effective 01/01/08, 06/17/08 effective 01/01/09, 06/15/10 effective 01/01/11, 06/19/12 effective 01/01/13, 06/18/13 effective 01/01/14, 07/15/14 effective 01/01/15, 07/21/15 effective 01/01/16, 07/19/16; effective 01/01/17, 07/18/17 effective 01/01/18; 07/17/18 effective 01/01/19; 7/16/19 effective 1/01/2020, 08/18/2020 effective 01/01/2021, 07/20/21 effective 01/01/2022, 07/18/22 effective 01/01/2023, 07/18/2023 effective 01/01/2024 and 07/16/2024, effective 01/01/2025; 07/15/2025 effective 01/01/2026. The last version is the current version in the AVAQMD rulebook.

Rule 301 is proposed for amendment to adjust most fees by 8% to recover the rising costs of issuing air quality permits, performing inspections, investigations, and enforcing District rules and regulations. In addition, Rule 301 also includes a 15% increase for fee classifications E-G as the costs for this type of equipment is not commensurate with the fee revenue received.

F. PROPOSITION 26 ANALYSIS

On November 2, 2010 the California voters added Article XIIC §1(e) to the California Constitution (commonly referred to as Proposition 26). This provision added a new definition of “tax” which resulted in a variety of fees and charges imposed by local governmental entities to be subject to voter approval. The provisions also provided several exceptions to this voter approval requirement including but not limited to:

A charge imposed for a specific benefit conferred or privilege granted directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege.

A charge imposed for a specific government service or product provided directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.

A charge imposed for the reasonable regulatory costs to a local government for issuing licenses and permits, performing investigations, inspections, and audits, enforcing agricultural marketing orders, and the administrative enforcement and adjudication thereof.

If a fee increase falls within one or more of these exceptions it is considered not a tax and thus not subject to voter approval.

1. Justification for Fee Adjustment to Rule 301 – *Permit Fees*

In general, air district permit fees would fall under this exemption so long as they are reasonably related to the costs of issuance and enforcement of the permits. A similar requirement that air district fees be reasonably related to costs of district programs is found in Health & Safety Code §42311(a) and includes language indicating that a CPI adjustment is part of a measure of the reasonable increase in district costs. In addition, the California League of Cities in its April 2011 implementation guide for Prop 26¹ opined that a CPI increase is part of the reasonable regulatory cost of issuing a license or permits and thus does not need voter approval.

The budget includes anticipated revenue derived from a proposed 8% fee increase to most permit fees. The proposed increase is expected to recover the costs of permitting, performing inspections, investigations and enforcing District rules and regulations.

The proposed fee adjustment is well within the provisions of Health & Safety Code §42311(a) and falls within the exemption found in Article XIIC §1(e)(3) of the California Constitution.
