

RULE 3011

Greenhouse Gas Provisions of Federal Operating Permits

(A) Purpose

- (1) The purpose of this rule is to provide the provisions necessary for the District to incorporate requirements for the regulation of Greenhouse Gases (GHGs) into Federal Operating Permits (FOPs) issued pursuant to this regulation.

(B) Applicability

- (1) This rule shall apply to:
 - (a) Any existing Major Facility as defined in District Rule 3001(S) which is otherwise subject to this Regulation XXX as of January 1, 2011.
 - (b) Any Major GHG Facility not otherwise subject to Regulation XXX on or after July 1, 2011.

(C) Definitions

For the purposes of this rule, the definitions contained in District Rule 3001 shall apply unless a term is otherwise defined herein.

- (1) “Applicable GHG Requirement” – Any of the following requirements:
 - (a) Any Applicable Requirement as defined in District Rule 3001(G) which specifically includes Greenhouse Gases.
 - (b) Any standard or other requirement promulgated by USEPA specifically relating to Greenhouse Gases.
- (2) “CO₂ Equivalent Emissions (CO₂e)” – The sum of the adjusted emissions of each of the six individual GHG as defined below, where the adjusted emissions for each individual GHG are equal to the mass emissions of that GHG multiplied by the global warming potential as listed in Appendix A of this rule.
- (3) “Greenhouse Gases” (GHGs) – An air pollutant consisting of the aggregate group of any of the following: carbon dioxide (CO₂), nitrous oxide (N₂O), methane (CH₄), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), and/or sulfur hexafluoride (SF₆).
- (4) “Major GHG Facility” – Any Facility which emits or has the Potential to Emit during any twelve (12) month period greater than both the following amounts:
 - (a) 100 tons GHGs without consideration of the GHGs global warming potential as listed in Appendix A of District Rule 3011; and

- (b) 100,000 tons CO₂e.

(D) Requirements

(1) Applications, Modifications and Reopenings:

- (a) Any application for an FOP submitted pursuant to District Rule 3002 submitted on or after the applicability date set forth in section (B) above shall include all Applicable GHG Requirements.
- (b) Any application for an FOP which has been submitted and deemed complete pursuant to District Rule 3002 but for which a preliminary determination has not yet been issued pursuant to District Rule 3003(B)(1) shall be modified to update the application with GHG emission data and include all Applicable GHG Requirements.
- (c) Any request for modification of an FOP submitted pursuant to District Rule 3005 on or after the applicability date set forth in section (B) above shall include GHG emission data and all Applicable GHG Requirements.
- (d) Any reopening of a FOP pursuant to District Rule 3006 on or after the applicability date set forth in section (B) above shall include GHG emission data and all Applicable GHG Requirements in any subsequent reissuance of the FOP.
- (e) An existing facility without an FOP shall submit an application in accordance with District Rule 3002 which includes GHG emission data and all Applicable GHG Requirements no later than twelve (12) months after becoming subject to this rule.
- (f) A new Major GHG Facility shall submit an application in accordance with Rule 3002 which includes GHG emission data and all Applicable GHG Requirements subject to the timing provisions set forth in District Rule 3002 (B)(3)(c).

(2) Federal Operating Permits

- (a) Any Applicable GHG Requirement shall be included in the FOP in the same manner and to the same extent as any other Applicable Requirement pursuant to District Rule 3003.

(3) Enforceability

- (a) Once issued, any FOP containing Applicable GHG Requirements and conditions derived there from is enforceable to the same manner and to the same extent as any other FOP and its conditions.
