

Motor Vehicle and Spray Coating Operations

Please provide the total gallons used for each material category (as applied, including catalysts, reducers, etc.) for the 2025 calendar year. Additionally, include the VOC content for each material in pounds per gallon (excluding water and exempt compounds, typically found in the SDS). Lastly, calculate and provide the total pounds of VOCs for each category using the formula:

$$\text{Total Pounds of VOC} = \text{Gallons Used} \times \text{VOC Content (lbs/gal)}$$

Company #:

Facility #:

Name:

2025 Annual Process Data for Coating

Material Category	Manufacturer(s)	Gallons Used	VOC Content (lbs/gal)	Pounds of VOC
Basecoat/Color	_____	_____	_____	_____
Clearcoat	_____	_____	_____	_____
Primers	_____	_____	_____	_____
Sealers	_____	_____	_____	_____
Activators	_____	_____	_____	_____
Reducers	_____	_____	_____	_____
Cleanup/ Wipe-down Solvent (Do not include Acetone)	_____	_____	_____	_____
